Rules-based signal computed from public sources and Crustdata's indexed data (including estimates). It is not financial advice and does not replace diligence, references or legal review. Private-company financial statements are not public; revenue figures are third-party estimates. Every figure carries its source; verified claims cite evidence IDs (E = source passage, G = Crustdata graph value) listed on the methodology page. Crustdata funding data is an indexed record (Crunchbase-derived), not an independent source.

2 Why this rating

Five pillars, fixed weights, fixed rules. Critical flags are about whether the facts hold; red flags are about the business.

Open points 6

⚠ **C1: holds with a qualification** The packet holds a press report, not Linear's own post; the report is not independent of the company's announcement, and Crustdata's record is not independent confirmation. `E1` `G6` `A1 verification-open`

⚠ **C4: holds with a qualification** Karri Saarinen is not among the founders in Crustdata's people record for this run, so his title has no graph join here; the title comes from the press report only. `E1` `E3` `E4` `A1 verification-open`

⚠ **C5: holds with a qualification** The Series C itself includes secondary funding (per the CEO's quoted post), so neither total is a measure of primary capital; Tracxn is an aggregator, not a primary source. `E5` `G6` `G7` `G8` `G9` `G10` `G4` `A1 verification-open`

⚠ **Indexed total includes secondary sales** Crustdata's indexed total $233,200,000 includes secondary sales, so it is not capital raised. `G10` `A2 secondary-total`

What would change the rating

- Answer: How much of the $82M Series C was new primary capital to Linear, and how much was secondary sales by existing holders?
- A new round, a founder change or a status change in Crustdata's record

Tiering is a stated prior used by many early-stage investors, not a judgement on any individual: a top-tier degree in the company's home market (IIT for India, Ivy/Stanford/MIT for the US) adds up to 10 points to the Team pillar, another market's top tier 6, and an elite-alumni share of at least 20% another 4 (cap 14).

How revenue is estimated

Interval-censored regression on 126 companies' Crustdata revenue bands, corrected by a leave-one-out bias factor from reported revenue, blended 50/50 with a revenue-per-employee benchmark for scaleups, then guardrails. Median error 14% on 6 companies with public revenue (all within 2×). Band is stale (listed 51-200, actual 303); estimate is 4.1x the Crustdata band top; fast headcount growth (+71% yoy) suggests revenue ahead of the band.

Each sentence below passed the code check (every number against its cited evidence) and the entailment check.

Funding rounds by date (indexed record, Crunchbase-derived)

Hatched bars are secondary sales: liquidity for existing holders, not capital in the company. Year-only dates are shown at year precision.

Indexed secondary sale (liquidity, not company capital): 2026-08-26, $99,000,000, Accel (indexed record, Crunchbase-derived). [G4]

Indexed secondary sale (liquidity, not company capital): 2025-06-10, no amount recorded, lead not recorded (indexed record, Crunchbase-derived). [G5]

Indexed series c: 2025-06-10, $82,000,000, Accel (indexed record, Crunchbase-derived). [G6]

Indexed series b: 2023-09-14, $35,000,000, Accel (indexed record, Crunchbase-derived). [G7]

Indexed series a: 2020-12-08, $13,000,000, Sequoia Capital (indexed record, Crunchbase-derived). [G8]

Indexed seed: 2019-11-22, $4,200,000, Sequoia Capital (indexed record, Crunchbase-derived). [G9]

Crustdata's indexed total $233,200,000 includes secondary sales, so it is not capital raised. [G10]

Verified claims

C1 SUPPORTED F3 · basis: independent report, indexed record (Crunchbase-derived) · as of 2025-06-10

TechStartups reported on 2025-06-10 that Linear has raised an $82 million Series C, as the company said. This is consistent with Crustdata's indexed record (Crunchbase-derived), which lists a Series C of $82,000,000 on 2025-06-10. E1 G6

Limitation: The packet holds a press report, not Linear's own post; the report is not independent of the company's announcement, and Crustdata's record is not independent confirmation.

C4 SUPPORTED F2 · basis: independent report · as of 2025-06-10

TechStartups, reporting Linear's $82 million Series C, quotes Karri Saarinen as CEO. E1 E3 E4

Limitation: Karri Saarinen is not among the founders in Crustdata's people record for this run, so his title has no graph join here; the title comes from the press report only.

C5 SUPPORTED F3 · basis: independent report, indexed record (Crunchbase-derived) · qualified · as of 2026-10-13

Tracxn's page (updated 2026-10-13) says Linear has raised a total of $134M over 4 funding rounds, which lines up with the seed, Series A, Series B and Series C entries in Crustdata's indexed record (Crunchbase-derived). Crustdata's total_investment_usd of $233,200,000 includes secondary sales, among them a $99,000,000 secondary-market entry on 2026-08-26, so it is not capital raised. E5 G6 G7 G8 G9 G10 G4

Limitation: The Series C itself includes secondary funding (per the CEO's quoted post), so neither total is a measure of primary capital; Tracxn is an aggregator, not a primary source.

9 Methodology

How every number and status in this report was produced.

Pipeline

1. Identity: the domain resolves to one Crustdata company ID (a tie abstains).
2. Sources: the funding announcement and coverage are fetched; text addressed to AI agents is data, ignored.
3. Claims C1, C2…: material Team & Financing statements quoted verbatim from those sources.
4. Graph: founders' roles and prior employers joined by employer ID; rounds matched to the indexed record.
5. Gate: code checks every amount, percentage, year and date against cited evidence; an entailment check confirms each sentence. Failures are withheld, never repaired.
6. Signals and scoring: indexed growth, market and founder data feed five pillars and fixed flag rules.

Scoring model

Pillar weights: Team 25% · Traction 30% · Market 15% · Financing 15% · Verification 15%

Weighted score 78/100 → rating **INVEST**; confidence high. Suggested allocation = standard check × sizing ($100K × 100% = $100K).
