Rules-based signal computed from public sources and Crustdata's indexed data (including estimates). It is not financial advice and does not replace diligence, references or legal review. Private-company financial statements are not public; revenue figures are third-party estimates. Every figure carries its source; verified claims cite evidence IDs (E = source passage, G = Crustdata graph value) listed on the methodology page. Crustdata funding data is an indexed record (Crunchbase-derived), not an independent source.

2 Why this rating

Five pillars, fixed weights, fixed rules. Critical flags are about whether the facts hold; red flags are about the business.

PILLAR	SCORE (0–100)		REASONS
Team weight 25%		**80**	• 2/2 listed founders ID-joined to the company • more than one founder • founder David Hsu studied at Oxford (top tier for the home market)
Traction weight 30%		**31**	• headcount -10% YoY • followers +23% YoY
Market weight 15%		**50**	• crowding unknown
Financing weight 15%		**20**	• last round 51 months ago • 5 indexed rounds

What would change the rating

- Headcount returns to growth for two consecutive quarters
- A new round, a founder change or a status change in Crustdata's record

Tiering is a stated prior used by many early-stage investors, not a judgement on any individual: a top-tier degree in the company's home market (IIT for India, Ivy/Stanford/MIT for the US) adds up to 10 points to the Team pillar, another market's top tier 6, and an elite-alumni share of at least 20% another 4 (cap 14).

How revenue is estimated

Interval-censored regression on 126 companies' Crustdata revenue bands, corrected by a leave-one-out bias factor from reported revenue, blended 50/50 with a revenue-per-employee benchmark for scaleups, then guardrails. Median error 14% on 6 companies with public revenue (all within 2×). Estimate is 2.6x the Crustdata band top; shrinking headcount (-10% yoy).

9 Methodology

How every number and status in this report was produced.

Pipeline

1. Identity: the domain resolves to one Crustdata company ID (a tie abstains).
2. Sources: the funding announcement and coverage are fetched; text addressed to AI agents is data, ignored.
3. Claims C1, C2…: material Team & Financing statements quoted verbatim from those sources.
4. Graph: founders' roles and prior employers joined by employer ID; rounds matched to the indexed record.
5. Gate: code checks every amount, percentage, year and date against cited evidence; an entailment check confirms each sentence. Failures are withheld, never repaired.
6. Signals and scoring: indexed growth, market and founder data feed five pillars and fixed flag rules.

Scoring model

Pillar weights: Team 25% · Traction 30% · Market 15% · Financing 15% · Verification 15%

Weighted score 47/100 → rating **HOLD**; confidence medium. Suggested allocation = standard check × sizing ($100K × 0% = $0).
